ABOUT US

Michael Garner began his career as a third generation auctioneer after graduating from Missouri Auction School at the age of 15. Immediately he began conducting charity and benefit auctions to develop his skills and make a name for himself in his community. As a result, he found a passion and enthusiasm for assisting nonprofit charities and foundations in their fundraising efforts.

As Mike's career has spanned over four decades, he has acquired a wealth of experience and knowledge that is vital to insure the success of each auction he conducts. He has the ability to keep the bidding crowd engaged with excitement, humor, and emotion. He also has an exceptional ability to read a crowd, or single bidder to get the last available dollar for your organization.
